Board of Registration for Landscape Architects

Adopted Rule Change WAC 308-13

The Board of Registration for Landscape Architects has adopted the proposed changes and additions to the rules governing the landscape architect profession. The purpose of the changes and additions are to add clarity to existing rules and reflect the current course of the profession. **This change becomes effective November 28, 2008.** The full text of the adopted rule is enclosed.

Why were these changes necessary?

- The change to WAC 308-13-010 increases the number of regularly scheduled board meetings from one to four per year, which matches the practice the Board has already been using.
- The addition of WAC 308-13-011 details specific requirements for sealing/stamping.
- The addition of WAC 308-13-012 defines standards of practice and conduct for the landscape architect profession.

Who do I call if I have questions?

Please contact the Landscape Architect Program with questions or concerns at (360) 664-1576.
